Volume 57, 1969

Adrenal gland
of rat, ultrastructural study of during development of adrenal regeneration hypertension, 335
Anemia
experimental hemolytic in rats, liver changes, 649
Aortic plaque
morphology of, related to coronary artery disease, 187
Atheroarteriosclerosis
production of with vitamin D and dietary cholesterol, influence of cirrhosis on, 405
Atherosclerosis
in bears, seals, and big cats, based on zoo autopsies, 673
Arthritis
of swine, caused by *M. hyorhinis*, 171
Capillaries
permeability of in experimental cholera, 153
Carcinoma
of the lung, loss of isoantigens, A, B, and H in, 307
Cholestasis
manganese-induced, observations of bile flow rate and hepatic ultrastructure, 617
Coronary artery disease
as related to aortic plaque morphology, 187
Cytosomes
hepatic, of rat, DL-ethionine effect on, 253
Diabetes
experimental immune, in rabbits, 597
Giant cells
asteroid bodies of, in sarcoidosis, 81
Hamster
cells of, SV40 morphologic transformation of, 199
Hemolytic-uremic syndrome
typical pathologic features: gross, light microscopic, and ultrastructural, 627
Kidney
rat, Na localization in proximal tubules of, 231
Leukocyte
antiserum, effect on generalized Schwartzman reaction, 299
Levan
native, effect on membrane permeability, 383
Liver
early changes in when rats are fed a choline-deficient diet, 431
Mn-induced cholestasis, 617
of rats
cytosome structure of, effect on DL-ethionine on, 253
modification of CCl_4 hepatotoxicity by prior loading with carbon particles, 689
ultrastructure changes in during experimental hemolytic anemia, 649
regeneration of, equations for, 1
Lung
carcinoma of, loss of isoantigens A, B, and H in, 307
Lymphocytes
transfused, effect of neuraminidase or trypsin on, 215
Mice
experimental myocarditis in by *T. cruzi* 31
Myocardium
dog, structural and biochemical changes in during autolysis, 539
Myocarditis
experimental, in mice by infection with *T. cruzi* 31
Paget's disease
ultrastructural observations on epidermal cells in, 49
Pancreas
of rat, morphologic and enzymatic comparisons of embryonic pancreas and organ-cultured pancreatic anlage, 457
DNA and protein comparisons, 489
Pituitary
human, ultrastructure of follicular cells of, 273
Platelets
bond between, fine structure of, 127
Puromycin
treated rats, gastric mucosa of 65
Rabbits
immunopathologic studies, and Goodpasture's syndrome (Oct) 17

induction of atheroarteriosclerosis in, 405
ultrastructural pathology of acute, fatal enteritis of, 93

Rat
adrenal gland ultrastructure during regeneration hypertension, 335
gastric mucosa of purromycin-treated 65
immunopathologic studies, and Goodpasture's syndrome (Oct) 17
kidney of, Na localization in proximal tubules of, 231
liver of, changes in on choline-deficient diet at four levels of protein, 431

Rheumatoid arthritis
arthritogenic effect of tryptophan metabolites in rabbits, 523

Sarcoidosis
giant cells in, 81
vasomotor factors in, 559

Shwartzman reaction
generalized, effect of leukocyte antiserum on, 299

SV40
in morphologic transformation of hamster cells, 199

Synovial membrane
fine structure of, in *M. plasma* arithritis of swine, 171

Testis
interstitial cells of the gerbil, ultrastructure and HCG effect, 581

Thyroid
bovine parafollicular cells of response to vitamin D-induced hypercalcemia, 365
